			)

Group Art Unit 2758

I hereby certify that this correspondence and all marked attachments are being facsimile transmitted to the Patent and Trademark Office, on

December 2, 1999
(Date)

Ray Salemiks, Reg. No. 37,924

AMENDMENT

In response to the Office Action dated July 21, 1999 (Paper No. 15) in the above-referenced patent application, please make the following amendments:

IN THE CLAIMS:

Please cancel Claims 1-30.

Please add the following new Claims 31-62:

31.   A system for resetting a computer, the system comprising:

a first computer;

a remote interface in data communication with the first computer;

a microcontroller connected to the remote interface; and

a second computer in data communication with the remote interface, the second computer having a processor configured to execute an operating system software, wherein the first computer sends a reset command to the microcontroller via the remote interface, and wherein the microcontroller is configured to provide a reset signal to reset the processor at the second computer.
